

Käpylä Bollard

IP44 E27 GLC RST H1100

Universal luminaire

The classic and timeless Käpylä luminaires are a great solution for lighting pathways and plantings in yards and gardens. The glass dome protects the bulb and steers the light both upwards and downwards through the body's steel rings. Install together with a concrete base and a support tube (4107058), or choose a ground support tube (4107104) that can be sunk directly into the ground. To create a harmonious look for your yard, complement the Käpylä bollards with Käpylä wall luminaires.
